

**EPMA**

Egyptian Plastic Manufacturers

## **About Egyptian Plastic Manufacturers**

The Egyptian Plastic Manufacturers is an Egyptian company that was established in 2019 to produce high quality affordable products to the furniture manufacturers.

## **Goal**

---

EPM aims at implementing new technologies to integrate the growing plastic industry into the furniture industry through printing and lamination. Our mission is to provide best quality products to the furniture manufacturers at very reasonable prices.

## **Mission**

---

To meet the demands of the furniture manufacturers in terms of quality, price and durability.

## **Vision**

---

To make an internationally acclaimed brand name and sell the our products to furniture manufacturers all around the globe.

# Values

---

We believe we can achieve our goal through the incorporation of youth minds with great enthusiasm and professionalism.

We believe that science has to be involved in the continuous development of every single product.

We believe that suitable polymers has to complement the wood industry to produce goods that are more practical while retaining the highest aesthetics.

# Our products

Our main product is PVC edge banding which is used by the furniture manufacturers to cover the cross section of wood boards (MDF, HDF, chipboard, etc..).

---

We recently introduced plastic and paper wrapped profiles which can either be used by the furniture manufacturers or the building contractors such as skirting boards and door frames.

We are currently working on the production of laminated boards (MDF, HDF, chipboards, plywood etc...) with decorative PET films with desirable finishes (high gloss and soft touch), attractive colors and unmatched properties.
